ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

TODAY & TOMORROW

OCT. 30-NOV. 12, 1982

(Newsbriefs continued)

UCSF faculty and staff are invited to submit proposals for instructional improvement projects to be completed during the 1982-83 academic year.

These funds, made available through the UC Regents, can be used for:

- improvement of existing programs including courses, curricula, instructional processes and academic advising,
- development of new programs,
- introduction of experimental approaches to instructional content, processes or resources,
- teaching evaluation activities including recognition of good teaching, the evaluation of the effectiveness of courses, curricula, individual instructors, departments, instructional support activities, and academic advising.

Applications can be picked up from the Office of the Vice Chancellor, Academic Affairs, Room S 115. Deadline for submission of applications is November 5.

The Clerical Pool recharge rate has increased from $7.51 to $7.64 per hour. In addition, the Personnel Department is starting a new "Employment Pool," which will encompass many job titles at different salary rates. Recharges will be calculated by taking the base rate of the classification plus an administrative surcharge of 25 percent. For further information contact Maryanne Penta, clerical pool supervisor, x4486.

DEADLINE

Deadline for the next issue of *Today & Tomorrow* which will cover the time period November 13 to 26, will be **Tuesday, November 2, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300.

The UC Board of Regents has approved the campus' 1982 Long-Range Development Plan (LRDP) at its recent meeting in Los Angeles.

The LRDP represents a revision of the 1976 plan but maintains all of its commitments to the community. The major improvements are:

- elimination of a proposed 15-story Health Sciences South Tower (HSS) and two other buildings. In their place,
- construction of a library/academic support building on the north slope adjacent to Millberry Union,
- construction of two or three modular research buildings on the west side of campus, as non-state funding becomes available,
- an improvement of the existing surface parking area on the west side of campus with a commitment not to increase traffic in that area,
- relocation to Kirkham Street of four of the seven houses on Fourth Avenue inside the campus now being used as offices, and rehabilitation of these structures along with two campus-owned houses already on Kirkham into residential use,
- rehabilitation of campus-owned houses on the east side of Third and Fifth Avenues for residential use,
- establishment of a priority need for facilities for recreation and other activities for well-being of staff, and identification of potential sites on and off campus for such activities,
- landscaping and other beautification measures for the streets bordering the campus, for the interior of the campus, and along Parnassus Avenue itself. Confirma-

The third annual Chancellor's Distinguished Lecturer for the Public Understanding of Science will be Harold M. Schmeck, Jr., science writer for the *New York Times.*

Schmeck, who is one of the most respected science writers in the country, will present his major address, "Who Owns the Future?" on Wednesday, December 1 in Room HSW 302 at 4 p.m. During the rest of the week of November 29, he will meet with faculty and students in small informal sessions.

Departments and units interested in setting up such a session should contact Brenda Patterson, News and Public Information Services, x2557.

The author of two books, *The Semi-Artificial Man* and *Immunology: The Many-Edged Sword,* Schmeck is currently completing a book on recombinant DNA research and its implications.

He is a five-time recipient of the *New York Times* Publisher's Award, the 1980 N. Y. County Medical Society Communications Award, and a special commendation from the AMA in 1971 for five years service as science correspondent for the N. Y. Times Washington bureau.

The Chancellor's Lectureship brings a distinguished national science writer or communicator to UCSF each year for a dialogue with faculty, students and staff, as part of an effort by the campus to strengthen public understanding of biomedical science.

Previous lecturers were Arnold S. Relman, editor of the *New England Journal of Medicine* (1981) and Barbara J. Culliton, science news and research editor, *Science* (1980).

For further information on the lectureship, contact the Department of News and Public Information Services, x2557.

tion of the 1976 commitment to maintain Mount Sutro as a 58-acre green belt,
• location and reconfiguration of interior campus space to provide more classroom and meeting space, better east-west and vertical access routes and elevators, and improved animal care facilities.

Each of the buildings proposed in the LRDP must go through an approval process of first locating funding, and then undergoing environmental impact assessment, before it can be approved by the Regents and construction begun.

Campus planning staff would welcome the opportunity to continue the dialogue with community and campus groups and individuals that has been going on for the past year, and that helped shape the '82 UCSF Long-Range Development Plan. Groups or individuals interested in meeting with planning staff should call x2911.

Millberry Union and the Faculty Wives are both holding their holiday fairs on Wednesday, December 1.

The Faculty Wives are sponsoring their annual Holiday Festival at 11 a.m. at the Chancellor's Residence. For further information call 221-2655.

Millberry Union will hold its first Holiday Crafts Fair, Wednesday, 10 a.m. to 6 p.m. and Thursday, 10 a.m. to 3 p.m., December 1 and 2 in the Millberry Union Gym.

The Millberry Union fair will feature hand-crafted goods by artists licensed by the S. F. Arts Commission, local specialty food vendors. The UCSF Child Care Study Center also will be displaying their hand-crafted items, with proceeds benefiting the children of the Child Care Center. Anyone wishing to contribute to or help staff the Child Care Center sale should contact Sarah Segerstrom, 681-7321.

Entertainment at the fair will be provided by the Committee on Arts and Lectures.

Space also is available for campus departments and registered employee and student organizations to display their arts and crafts. The eight-foot tables will be rented for $25 on Wednesday and $20 Thursday; both days $40.

Applications are due in Millberry Union, Room 245 by Monday, November 1. A special lottery will be held on November 3 at noon at the Millberry Union Central Desk if the number of applications exceeds the tables available. Applicants need not be present. For further information contact Randy at x1800.

Open Enrollment will be held during the entire month of November for certain aspects of life, dental and short-term insurance plans. Employees may make the following changes in their policies:
• Prudential employee-paid life insurance: enrollment for the first time or increase the amount of coverage. There is a 10 percent reduction in rates and the $2,000 flat coverage has been increased to $5,000, effective January 1, 1983.
• Prudential dependent life insurance: dependents may be added at this time. Increase in coverage from $1,000 to $2,500 and $1,500 to $5,000, effective January 1, 1983.
• Aetna and Safeguard Dental Plans: employees who are already enrolled may transfer from one plan to another or add eligible dependents.
• Nonindustrial disability insurance, plans A and B, and Short-Term Disability: employees in NDI-B may transfer to NDI-A and enroll in the short-term disability program. Effective date of short term is April 1, 1983.

Employees may not change their health plans, or enroll for the first time in a dental plan or short-term disability during this open enrollment period. Accidental death, dismemberment and California Casualty auto insurance are open at any time.

Individual benefit summaries will not be mailed to employees this year; however, the itemized deductions listed on each paycheck provide an important review for each employee.

Two special brown bag noon meetings will be held on Wednesday, November 10 in S 214, and Tuesday, November 23 in HSW 301 for employees who would like to discuss open enrollment.

Forms for all insurance changes are available from department supervisors, and must be received in Accounting, CED 322 or Personnel, LH 150, before 5 p.m. on November 30.

UC President Saxon has approved the extension of the term of service for visiting postdoctorals to a maximum of three years. All other visiting titles are still restricted to two years. Approval of these appointments is by Dean Lloyd Kozloff, Graduate Division. For further information contact Marie Karonsky or Janice Babula at x2111.

The United Way Grand Prize Drawing will be held on Friday, November 5 in Saunders Court at noon. United Way contributions must be delivered by 5 p.m. the preceding day to the Development Office, 532 Parnassus Ave., or to a United Way return box in order to qualify for the grand prize drawing.

Return boxes are located at: Dean's Office, SFGH, Ginny Barry, 821-8505; Accounts Receivable, CED, Phil Ruttenberg, x1850; Materiel Management, Oyster Point, Claudia Bruno, x5761; VAMC, Rm. A107, Bldg. 200, 750-2047; LPPI switchboard, Sara Colman, x77-484; Laguna Honda, next to xerox machine, Ruth Lucas, x1564; Moffitt Hospital, Information Desk, Teru Hirano, x4844; Visitors/Information Center, Jean Ball, x2119; ACC Reservation Box, 1st floor; and front desk, School of Dentistry, Wanda Garner, x5958.

Donors of $12 or more per year ($1 per month) are eligible for donated prizes which include two nights at the Fairmont Hotel, four cases of fine wine, discount airline tickets, Pier 39 VIP dinners and other prizes to be announced.

United Way contribution pledge cards, reply envelopes and donor designation cards have been sent to each employee in two campus mailings.

Units and services continue to move into new space of Long Hospital and renovated space in Moffitt. Most recently, CRI patients moved from Moffitt 12 S to Moffitt 9 NS.

Patients from the eye service on 3 UC and ENT on 4B UC are now housed on the 9th floor of Long. Urology patients from Moffitt 14 will be moved by the middle of November.

The next patient floors to be occupied are the 10th and 11th floors of Long Hospital. This will occur before Christmas and will include moving the remaining patients from the 3rd and 4th floors of UC Hospital.

Moffitt and Long hospital roofs will be tarred during the first two weeks of November. All divisions and units on the east side of the north wing and the north side of the east wing of Moffitt and all units facing the construction site are reminded to close all windows.

The Long rubbish chute is now open which means the Moffitt rubbish chute will be phased out as soon as possible. This will eliminate trash collection in front of the Radiation Oncology Department in the Moffitt basement. Rubbish from Moffitt's 7th, 8th, and 9th floors should be deposited in the Long chute.

In addition, jackhammering will continue to occur at various opening sites when it is necessary to trim or clean out additional parts of the openings. Jackhammering also will occur in the Moffit basement.

Pacific Telephone's S. F. white and yellow pages directories for 1982-83 are now available. Departments can pick them up in the Mail Room, S 26. For further information contact the Telecommunications Office at x1581.

The Millberry Union Bookstore now has a new manager, Michael J. O'Leary. Store director of San Francisco State since 1979, O'Leary was the manager for 11 years of Lucas Books, Inc. in Berkeley. O'Leary is in charge of both Millberry Union bookstores, which have been merged into one operation. They are located in the east wing and west wing (Bear's Wares) of Millberry. O'Leary can be reached at x1666.

The 1982 Hitchcock Lecture will be held on Tuesday, November 9 in HSW 302 at 4 p.m. Freeman J. Dyson, member of the Institute of Advanced Studies, Princeton, will talk on "The Origin of Life."

Dyson's talk at UCSF is sponsored by the Department of Biochemistry and Biophysics. Dyson also will present lectures at UC-Berkeley on November 1, 4 and 8. For more information on those lectures call 642-5472.

The Hitchcock Endowment Fund was established by the late Charles M. Hitchcock in 1885 for "free lectures upon scientific and practical subjects." It was greatly enlarged in 1930 by a bequest from his daughter, Lillie Hitchcock Coit.

LPPI is offering a special clinic for individuals suffering from stress and anxiety, according to Janice Krupnick, MSW, assistant clinical professor at LPPI. Anxiety symptoms are frequently the result of a recent change in a person's life; in most cases the patient can be helped through therapy, Krupnick declares.

Each person who goes to the clinic is given a comprehensive evaluation lasting up to four hours and is then offered appropriate treatment or is referred to more suitable services. If the person is accepted for the clinic, there is a series of 12 sessions of 50 minutes each. The sessions are on an individual basis with faculty from LPPI.

Patients who are treated at the clinic also will be part of a clinical research project on anxiety and stress. Those interested should contact Nancy Wilner at x77-510.

In an effort to ease the parking congestion on campus, Transportation Services continues to offer carpooling to all UCSF employees.

Carpools of three or more people can purchase monthly decals at a reduced rate to park in the UCSF garages. A computer is used to match individuals from the same residential area.

In addition, Transportation Services now has revised UCSF/SFGH and UCSF/UC-Berkeley shuttle schedules available in Room A C14. For further information on carpooling or the new revised shuttle schedules call x1511.
